Symantec vip access manager admin guide version download

Loading PreviewSorry, preview is currently unavailable. Billions of authentications Join thousands of customers and millions of users with VIP. Just swipe to approve a request. You only need to do this once. To Sign Out of VIP Manager:Select your email address in the upper-right corner of the page.From the drop-down menu, select Sign Out.**Important:** After you Sign Out, you should close your browser window for security reasons. Two-factor authentication is easy to enable and prevents attacks. To begin, scan a QR code and security codes will be generated for that website every thirty seconds. If you have already obtained a credential, you can register it as part of the Sign In process. Secure Authentication Anywhere Your key to one swipe two-step authentication. Consolidate your Authenticator applications A two-factor authentication credential wallet. If security codes from your credential are no longer recognized by the VIP service, you may need to reset your credential.If you see the Reset Your VIP Credential page, follow these steps to reset your credential:Enter a security code from your credential in the Security Code field.Get the next security code, and enter it in the Next Security Code field.Select Reset.You see a success or failure message with further instructions. With Symantec VIP both enterprise and end users can securely authenticate wherever and however they are accessing the services. For your protection, your account will become locked if there are too many unsuccessful Sign In attempts with incorrect passwords and/or security codes. The page for registering your credential is displayed. If you forget your password, follow these steps to receive a temporary password and reset your password:Select Forgot your password? Use the six-digit security code you see on the front of the device to Sign In.If you have a VIP Security Card: Press the button on the card. Use the six-digit security code you see in the upper right corner of the card to Sign In.If you have VIP Access: Use the six-digit security code that is displayed to Sign In. You must register your VIP credential to access and use VIP Manager. Protect your passwords, anywhere A password is not enough to stop an attacker. Select Continue.Locate your credential ID, and type it into the Credential ID field on the page.The credential ID is a unique, 12-digit alphanumeric identifier that associates your credential with your VIP Manager account.Enter a six-digit security code displayed from your credential within the Security Code field.Select Register.Your VIP credential is now registered to your account, and you are automatically signed in to your account.The next time you Sign In to VIP Manager, you will be prompted to enter a security code from your credential to access your account. Credential Wallet Scan a QR code to securely generate security codes for your favorite websites like Google, Facebook, Github, and more. If your account becomes locked, you must have your administrator unlock your account. You will receive an email containing a temporary password.Enter the email address for your account and the temporary password we sent to your email address.Enter two security codes from your registered credential.When prompted, change your password.Once you have changed your password, you are automatically signed into your account. You can download the paper by clicking the button above. The administrator must have the Find/Modify VIP Administrator permission to send you a temporary security code.Enter the email address for your account, and select Send.We will email you a temporary security code that is valid for one Sign In within a restricted timeframe. A security code is a unique, six-digit number displayed on your credential. If you have problems registering your credential, contact your administrator. Follow these steps to change your password at any time:After you Sign In to VIP Manager, select your email address in the upper-right corner of the page.From the drop-down menu, select Manage Profile.Type your new password, confirm your entry, and select Save Changes.
